Symptoms of Burnout

Are you mad all the time?
Are you tired all the time?
Do you no longer care what happens at work or home?
Do you just feel worn out?
Is most of your day spent on things that you find
mind-numbingly dull?
Do you feel like nothing you do makes a difference?
Do you feel like other people don't care what you think
or do?
Have you quit taking on responsibilities?
Do you try to get away from people?
Are you taking longer to get things done?
Have you tried to cope by using things like food,
alcohol, or drugs?
Do you take things out on others?
Are you in the habit of coming in late to work, leaving
early, or just plain skipping it all together?
